ALLION®

Allion Japan Inc.

Company Description

Founded in 1991, Allion has accumulated over 30 years of testing experience.

Headquartered in Taiwan with branches in the U.S., Europe, Japan, China, and South Korea, we are able to provide convenient, top-quality services wherever you are.

Allion offers professional services in research, design, quality, and production. Our services include standard certification and compliance testing, product ecosystem scenario testing, test fixture design, and IIoT solutions.
