KMT INC.

Company Description

KMT INC.

all plus

Since our founding, we have appealed to add "technology", "future" and "possibility" to our customers' businesses.
In the semiconductor industry, which has led the world's cutting-edge technology, we have been given opportunities little by little by our customers, and we have accumulated many achievements that have turned them into positives, and we are pleased by many customers.
We will continue to provide even better products and services while cherishing the accumulation of the good old days while pursuing the latest, learning from the past.
