

## TEMENOS Japan K.K.

---

### Company Description

**TEMENOS is a leading global banking software company with a firm foundation and strong financials.**

The Company's core processing products encompass all banking segments; Private, Wholesale, Universal, and Retail from small to large scale banks.

TEMENOS has a global presence through 38 offices in 5 continents with an international client base of 400+ financial Institutions and 600+ live locations. Working together with strategic alliance and key business partners, TEMENOS is the provider of choice for the world's leading banks.

Reinvent Banking With the World's #1 Banking Software

#### **Technology for Better Banking**

We are passionate about helping financial institutions of all sizes, in all sectors, around the world, to dramatically accelerate their digital transformation.

Temenos software is proven to enable its top-performing clients to achieve industry-leading cost-income ratios of 26.8% and returns on equity of 29.0%, 3X better than the industry average. These clients also invest over 51% of their IT budget on growth and innovation versus maintenance, which is 2X the industry average, proving the banks' IT investment is adding tangible value to their business.

Our products combine the richest end-to-end packaged country model bank functionality and the most advanced cloud-native, cloud-agnostic, AI and API-first technology, helping our clients go live faster, giving them the freedom to innovate and deliver personalized experiences.

With the largest global community of banks, FinTechs, developers and partners, we are bound by the belief that working together will make banking better.

#### **Solutions for All Industry Sectors**

- **Retail Banking**

A key focus for retail banking is the acquisition of new customers and the growing of wallet-share for existing customers. This requires a front-to-back focus, complete with high levels of AI-driven customer insight enabling you to utilize a flexible product engine to offer your customers a personalized, relevant experience at the right time.

- **Corporate Banking**

Temenos provides an integrated solution that supports all main instrument classes for corporate banking. This enables you to provide multi-instrument offers to corporates and helps your Relationship Managers see the overall corporate relationship.

- **Wealth Management & Private Banking**

Empower your portfolio and relationship managers with the latest in wealth management and modern cloud technology.

- **Fund Administration**

Offering fund administrators, asset managers, insurance companies and pension funds, a complete solution to thrive in the digital age.

- **Universal Banks**

Temenos offers a series of integrated software products from a single technology platform that enables you to leverage core competencies to serve multiple different business sectors.

- **Business Banking**

Eliminate the silos from the digital banking experience. From a single platform, cover all channels. Design once and cover mobile apps, web, wearable, conversational and branch experiences.

- **Challenger Banks**

Changes in technology enable new banks to set up, and existing banks to open new operations, more quickly to take advantage of fragmenting customer segments and evolving customer needs.

- **Islamic Banking**

A flexible and efficient award-winning solution enabling Shari'ah compliant innovation, scalability and digital engagement with your clients.

- **Credit Unions**

Temenos has served credit unions for over 20 years, so your mission of putting your members and communities first is our top priority. We design our software to optimize member experience and enhance operational efficiency, giving your employees more time to build and deepen relationships with members.

- **Central Banks**

Temenos software provides Central Banks with the ability to support and foster business success in their economy.

- **Financial Inclusion**

Extend Financial Inclusion rapidly using a packaged and integrated model bank that is developed specifically to increase access to relevant financial services.
