

Asahi Glassplant inc.

Company Description

AGI provides a solution for every stage of your chemical processing journey. We help various chemical sector clients and researchers to process and manufacture chemicals from lab to production scale.

Our engineered glass systems are designed for fundamental chemical processes and applications, including reaction, filtration, evaporation, concentration, distillation and extraction. Quartz engineered systems are provided for high purity applications.

Company Details

Head Office

Japan

Main Business

理化学用ガラス製品の製造販売、石英ガラス製品の製造販売、装置レンタル、ガラスプラント設計製作・メンテナンス、自動化装置設計製作、真空装置設計製作、委託実験・生産、理化学汎用機器・消耗品機材・実験装置販売、その他一般品販売

President

池田 靖之

Established

1950年4月

Capital

1億円

Number of Employees

101 - 500
