ISHIGURO
イシグロ株式会社

ISHIGURO Co.,Ltd.

Company Description

Ishiguro Corporation was founded in 1939 as a valve manufacturing company, in 1950 started wholesale business and contributed to postwar reconstruction by distributing Plant and Building Materials. Nowadays Ishiguro Corporation has focused on wholesale business and been a leading company with about 80-year-history in the market. For dealing with the overseas demands, Ishiguro International Co,. Ltd., was grouped into Ishiguro Corporation on 29th February, 2012 as one of affiliated companies, and has been focusing upon the appropriate & value-added services mainly for countries for Asia, Oceania, Middle East and North America that have been showing remarkable economic growth over past years. To flexibly meet the needs of markets in countries, we make every efforts to be able to provide competitive pricing to customers, by driving synergies out of our method as a wholesale distributor while injecting management resources.
