

## AP Capital

### Company Description

**AP Capital** is a diversified investment firm involving in equities, commodities, FX, fixed income and others. We adopt strategies to minimize the impact of market turbulence and maximize investment potential.

### Proprietary Trading

The principal investment objective of AP Capital is to consistently achieve net positive return with little directional exposure and low correlation to the markets.

As one of the pioneers, we have built strong relationships with various institutional service providers, exchanges, and other counterparties, with cutting-edge connectivity in the financial ecosystem.

### Cutting Edge Technology

- 100% control of the technology stack in the firm, no vendor dependency
- Tailor-made customization for our unique trading strategies
- Flexibility for the extremely dynamic changes in current global market

### Asset Management

Aiming at providing risk adjusted return for investors, we have a well-diversified digital asset portfolio.

We have profound institutional experience managing capital for family offices, fund of funds, and high-net-worth individuals from Asia, Europe, and North America.

### Our Offerings

We offer discretionary fund products, which have years of successful tracking record. Investors can also invest in us via managed accounts to gain more transparency and control.
