Bison energy K.K.

Company Description

Bison Energy is a global developer and investor for environmentally friendly renewable energy projects. We are committed worldwide to creating sustainable energy through the production of clean, environmentally friendly renewable power plants. As an international leading renewable developer and investor, we have experienced phenomenal growth with portfolios across Europe, Eastern-Asia and Australia. We identify suitable sites, negotiate land arrangements with title holders, co-ordinate network connections and arrange all key commercial contracts including Construction, Power Purchase Agreements (PPAs) and financing. We partner with the worlds most trusted and experienced suppliers and investors to advise, fund, design, construct and operate renewable projects, whether Solar, Energy Storage, Wind or Biomass. Supported statement by the latter, we are positioned as one of the world's most honest, reliable and pro-active renewable teams which we owe to our strong corporate core values and ethics.

Mission Statement:

- Creating a Sustainable World

- We strive to inspire the world to adapt to energy sources that are "Powered by Nature".

Core Values:

- Clean We support a cleaner, greener future.

- Honest Everything we do is of the highest ethical standard.

- Innovative Always striving for more to create a better sustainable world.

Further Services available from the Bison Energy Group:

- Design Services:

Global design of major photovoltaic power stations through our highly qualified specialist team. Our international team has already implemented projects with an overall nominal capacity of more than 800 MW - in Japan, Australia, South Korea and European countries.

- Development & Promotion

Bison Energy develops and promotes innovative technology projects in the field of renewable energy. We prepare them for the market and make available to investors to access.

- Investment Opportunities

Bison Asset Management Fund offers institutional investors customized portfolios and fund solutions for investment in renewable energies, backed by an all-round service for our clients.
