

Kaigai Corporation

Company Description

Since its establishment in 1967 as the Aviation Division of Kaigai Bussan Corporation, Kaigai Corporation has played an important role in the field of sales, maintenance, and repair of Avionics and Avionics Radio Equipment.

In recent years, our portfolio has undergone a major transformation, becoming a specialized Aviation and Defense trading company focused on Defense Products, Satellite Communications, and Aircraft Component Repair and Warranty Services, providing reliable products and services to our customers both domestically and internationally.

Defense Products, Satellite Communications, and Avionics will continue to play a vital role in the defense sector. We are proud to serve the needs of our customers by striving to provide them with the best products and services. Through these activities, we will continue to support the enhancement of national security and satellite communications capabilities and communicate our commitment to advancing technology and innovation in the Aerospace arena.

Kaigai Corporation is composed of a highly qualified team of professionals. In particular, in the field of Satellite Communications, we have established Kaigai Communications Corporation, which specializes in the Provider Business and is dedicated to providing one-stop solutions to our customers through our advanced technical knowledge and experience. We continue to place importance on being able to answer the needs of our customers and aim to build long-term partnerships.
