Nichion Inc.

Company Description

Copyright Administration

The Copyright division administers both domestic and international copyrights, with a catalog of nearly 50,000 domestic works and over one million international works. Our dedicated services ensure writers receive accurate song registration, thorough royalty collection, and transparent royalty accounting.

Sync and Media

The Licensing Department is proactively exploring opportunities to enhance revenue streams, particularly by securing synchronization licenses for films, TV commercials, video games, and various other media platforms.

Creative Services

The Creative team excels in enhancing your songs and writers through personalized song pitching to local artists, strategic master placements, cover recording acquisitions, coordinated co-write sessions, and comprehensive writer/artist development initiatives.

Sounds Library

The Sounds Library represents international library labels encompassing a diverse array of genres and styles in Japan. It delivers premium-quality library music tailored to the demands of professional users in the market.
