

ミニガスカートリッジの日本トップブランド
日本炭酸瓦斯株式会社

NIPPON TANSAN GAS CO.,LTD.

Company Description

Founded in 1917, NTG was the first in Japan to manufacture liquefied carbon dioxide gas. Since the 1950s, the company has focused its R&D efforts on mini gas cylinders and related applications. Our lineup includes various gas energy sources such as carbon dioxide, oxygen, and nitrogen, and we offer a substantial array of equipment and technologies exclusively for safety.
