GLOBAL ASSIST, LTD.

Company Description

Since our founding, we have been providing engineering services in the fields of aerospace ・ defense and automobile development in Japan and overseas.
Under contemporary technological innovation and ever-changing business environment, we believe that it will be necessary to respond to diverse business values and work on new business schemes.
In such an environment, we have set "Revolution" as our slogan based on the achievements, positively introduce various ideas, create new perspectives and new business schemes, and pursue the provision of surprisingly high value-added engineering services with an eye on the future.
