

REMARK SOLUTIONS ASIA PTE. LTD.

Company Description

About RSG (ReMark Solution Group)

RSG is a global insurance marketing provider with operations around the world.

In 2000, RSG established ReMark Japan Co., Ltd. in Japan. For more than a quarter of a century, we have continuously provided numerous Japanese and international insurance companies with insights into customers' evolving needs, in-depth expertise in areas such as new insurance product development, and practical sales know-how.

Drawing fully on this extensive business experience accumulated over many years, we have established a new small-amount and short-term insurance company to offer insurance products directly to customers.
