新洋海運株式会社

Shinyo kaiun corporation.

Company Description

5 advantages of Shinyo Kaiun

We are capable of handling everything:
import and export of merchandise items and cargo, customs clearance,
procurement of air and ship transportation,
cargo handling, storage and domestic transport.

1. Cargo handled by experienced workers
Cargo that we receive, from large cargo to LTL cargo,is handled by experienced workers with thought and care.

2. “AEO” certified which proves our credibility
AEO certi cate enables prompt customs clearance.
AEO (Authorized Economic Operator) is a certificate and approval given from customs director to business operator who has an organized compliance system and security control over international cargo, in order to alleviate and simplify customs procedure.

3. Concierge of international logistics
Our‘ concierges of intern ational logistics’ make proposals on the most ap propriate transportation measures and routes, wh ile listening to requests from our clients. This wil surely lead you to ‘cost reduction’ and ‘ delivery on time’.

4. Strong in Asia and ASEAN region
We provide the same quality service overseas as in Japan by utilizing our overseas network which has developed as a result of many years of customer trust in our performance.

5. Excellent domestic network
Company started business shipping by sea from Sakai city, Osaka to Hokkaido. Since then, having this as our main route, we have developed a ful?lling network of domestic through-transit.
