Nextorage

Company Description

Nextorage Corporation was established on October 1, 2019, as a company specializing in memory storage solutions. We are a company led by engineers and staff utilizing more than 20 years of experience in memory storage.

About Us

Nextorage Corporation was established on October 1, 2019 as a company specializing in the memory storage solutions business led by engineers and staff who build on over 20 years of history in memory storage at Sony. We created a framework for continuing to provide products of the highest performance with peace of mind, fully leveraging our memory controller technology, highly durable product design, manufacturing infrastructure, and memory purchasing capacity.
