Nippon Otis Elevator Company

Company Description

Otis is the world's largest elevator and escalator manufacturing, installation and service business. We serve customers in over 200 countries and territories around the world and maintain more than ~2.3 million elevators and escalators. We have 71,000 employees, including engineers, digital technology experts, sales and functional specialists, as well as factory and field technicians. We are proud to be a global team that continues to rise to the challenges of a fast-moving, high-performance company. Together, the people of Otis are creating new ideas and opportunities by collaborating across time zones, geographies and cultures to better serve our customers. Just imagine where you can take your career!
