Ito Electronics Co., Ltd.

Company Description

60 years of Trust and performance in the Chubu area
Ito Electronics was established in Nagoya City, Aichi Prefecture, and celebrated the 60th anniversary of its founding in 2017. We have been growing with many manufacturers in the manufacturing region of Aichi, and continue to gain trust and increase our performance.

More than 360 clients and more than 170 suppliers
Ito Electronics has been trading with more than 360 companies and more than 170 suppliers, including parts manufacturers, by playing a role that connects optimal companies to each other from many choices.

ALPS ALPINE and Hitachi Group Special agency contracts with 2 large manufacturers
Ito Electronics has had special agency contracts with two large companies, ALPS ALPINE and the Hitachi Group, that hold a large share of the electronic components industry. This is a sign of our reliability as a trading company that handles important products for each company.

From custom components to manufacturing contracts 15 product groups
Ito Electronics meets various customer needs through a diverse and wide range of products and businesses, including the EMS business that produces semiconductors, electronic components and specialized, custom-ordered components or factory production.

Responding to requests in 4 industrial fields
Vehicle installation, industrial equipment, housing equipment, and amusement--these are the major industries of the Chubu area. These four industries have been the main business domains for Ito Electronics. The years of experience and performance we have gained have been passed down to the present day, and our specialists who are familiar with the rules of various industries and business practices can fulfill customer demands.

Mainly in emerging countries 8 sales offices throughout the world
Ito Electronics trades with companies around the world, mainly in emerging countries and the cities of Shanghai, Shenzhen, Hong Kong, Bangkok, Gurugram and Bangalore in India. We established local subsidiaries in Guadalajara, Mexico, in January 2016 and in Detroit, U.S.A., in June, which resulted in the further expansion of the places we support customers.
