Sanko Manufacturing Co.,Ltd.

Company Description

When the company was founded in the 1950s, medical equipment was still expensive and not widely used. Therefore, the founder,Morio Ugajin, decided to provide hospitals with cheaper and better products to help even one person suffering from a disease. We have focused our efforts on the development and dissemination of medical equipment with the desire to save as many patients as possible.

Inheriting our founding spirit, we hope to save as many patients as possible, reduce the burden on medical professionals who use our equipment, and help improve the harsh environment of the medical field.
We will continue to work diligently and earnestly to manufacture products that say "Thank you" with the gratitude of each and every one of our employees.
As we are living in the "100-year life period", our lifestyles are changing along with the changes of the times. In this context, we at Sanko Seisakusho stand in the position of patients and medical professionals and provide useful products at all times.
In this context, we at Sanko Seisakusho will always stand in the shoes of patients and medical professionals and provide useful products and services. We will continue to develop a new product. We would like to thank you for your continued support.
