AOTO ELECTRONICS(JAPAN)CO.,LTD.

Company Description

AOTO ELECTRONICS JAPAN CO., LTD. is the Japanese subsidiary of SHENZHEN AOTO ELECTRONICS CO., LTD., which was established in 1993 in Shenzhen, China.

Our business mainly focuses on the development, manufacturing, and sales of LED displays. We offer a variety of display solutions for both indoor and outdoor use, and also provide design and installation services for information display systems for financial institutions and urban landscape lighting. Additionally, we have been involved in world-class events, such as the FIFA World Cup and the UEFA European Championship. We are globally expanding and providing innovative visual technologies in the Japanese market.

Company and Work Appeal

AOTO's Technology that Entertains People

With LED displays as our core business, we have also made significant achievements in developing financial systems and landscape lighting. We have successfully completed over 15,000 projects and obtained over 600 patents and copyrights. With a focus on lightweight, slim, durable, flexible, and vibrant displays, we receive various requests from clients around the world, and we are committed to continuing to expand the possibilities of LED displays.

Here are just a few examples of our achievements:

- Sports events (international soccer events, etc.)
- Large displays in New York's Times Square
- Major TV stations like BBC
- Digital signage for airports, train stations, and luxury fashion promotions
- Our products have also contributed to special effects in movies such as "Batman."

A Safe and Supportive Work Environment

We adopt an international standard work style. Typically, there is no overtime, and employees are expected to focus on their work during regular hours. Performance is evaluated based on how efficiently tasks are completed and the results achieved. At the same time, we offer generous long-term holidays, including Golden Week, summer holidays, etc. We also have well-established maternity and parental leave systems, allowing employees to pursue long-term career development with a good work-life balance.
