MECHANOCROSS Co., Ltd.

Company Description

MECHANOCROSS is the company that takes on the challenge of mechanochemical technology for organic synthesis.

We implement "mechanochemical technology for organic synthesis" that has been developed at Hokkaido University, Japan, which can realize a clean and more comfortable society for our stakeholders. Our mission is to address worldwide environmental issues and provide solutions through innovations to catalyze transformative shifts within industries, paving the way for a greener future.

We also provide new functional new functional materials that are available only through mechanochemical organic synthesis. Our dream at MECHANOCROSS is to create a comfortable society together with companies.

Company Details

Head Office
Japan

Main Business
溶液反応のメカノ化技術の提供、不溶性高機能材料の開発、提供 メカノケミカル有機合成関連情報発信

President
齋藤 智久

Established
2023年11月1日

Capital
2000万円

Number of Employees
1 - 10

URL
https://mechanocross.com/

Offices

Main Office
Kita21 Jounishi 10chome, Sapporo-shi Kita-ku
Hokkaido, Japan, 0010021
