

AGL Corporation

Company Description

We primarily provide marine and air import from China and ASEAN countries, as well as trilateral transport and international transport for China and ASEAN countries. We always check the transport conditions and thoroughly complete delivery management of customers' cargo. Furthermore, reliable delivery of customers' cargo is important to us.

Transport services are becoming more diverse. We think primarily providing services which suit customers is important. We transport by meeting the needs of customers' requests.

Recently, the political situation overseas and the transport environment are changing greatly; however, we adapt to the change and make it our mission to deliver cargoes to customers. We will continue to conduct international transportation.
