

Beff

Beff Co., Ltd.

Company Description

Eliminate inefficiencies in the world, achieve a prosperous society

We are a global startup based in Japan and Germany, driving innovation through two core businesses: the development of AI-powered software that streamlines battery research, and collaborative services for next-generation battery development.

Our mission is to eliminate inefficiencies through the power of technology and contribute to a more sustainable society. We are committed to pursuing innovation—for the future of people and the planet.
