みずほ丸紅リース株式会社

Mizuho Marubeni Leasing Corporation

Company Description

Since our establishment in 1993, we have been providing various financial schemes to meet such diverse customer needs.

We became a joint venture of Mizuho Leasing Company Limited and Marubeni Corporation (each holds 50%) in March 2019. And then, in May 2020, we made a new start both in name and reality by changing our trade name to Mizuho Marubeni Leasing Corporation together with the relocation of the head office, and have continued to this day.

The economy and society around the world are undergoing drastic changes, and the business challenges that our customers facing are becoming increasingly diverse and complex.

Under such circumstances, utilizing our strengths and know-how (Mizuho Leasing's "extensive knowledge about goods" and "solutions using advanced financial know-how", and Marubeni's "overseas network as a Sogo-Shosha" and "achievements in various business fields"), we will propose the most suitable solutions to the ever-diversifying needs of customers.

We aim to be the best partner to together create the future with our customers through providing leasing & finance and consulting services as a total financial services company.
