

KG Corporation G.K.

Company Description

KG Corporation is a Japan-based construction company specializing in project management and engineering services for U.S. military and commercial projects.

Our registered business activities include planning, surveying, design, construction, supervision, and consulting for architectural, engineering, and other construction works. We also provide services in real estate sales, leasing, brokerage, management, and valuation, as well as the design, supervision, construction, and sales of housing.

In addition, KG Corporation offers consultancy services related to overseas transactions in the Japanese construction market and provides interpretation, translation, documentation, and administrative support related to these activities.
