

Takihyo Co., Ltd.

Company Description

We will continue to provide dreams and excitement to our customers.

Since our founding in 1751, we have always responded to and contributed to a changing society with a “customer comes first” spirit.

Under our management policy of “always taking on new challenges,” we will continue to provide dreams and excitement to our customers through fashion.

In order to continue to grow for another 50 to 100 years, we will “carefully” tackle each of these issues one by one and build a solid foundation.
