

Nihon PMI Partners.

Company Description

We believe that there are numerous investment opportunities in the Japanese healthcare sector.

Within the sector, financial performance and social impact deserve to be pursued at the same time.

Heartfelt, hands-on methods create solid value.

VALUES

PMI

Post-Merger Integration

Providing support to domestic portfolio SMEs through PMI, the most significant element in the restructuring and integration phases of their businesses.

Professional

Specialized in Healthcare

Strengthen your sales force with the management skills of our medical license holders and their familiarity with the decision-making process of the medical institution.

DX

Digital Transformation

Supporting both management optimization and new business development through DX(digital transformation).
