

UTAC Japan

Company Description

Founded in 1924, UTAC is a global leader in the mobility industry, dedicated to advancing a safer and cleaner future. The company offers a comprehensive range of services to support the entire vehicle lifecycle, from development and testing to certification and homologation. With a global presence spanning Asia, Europe, North America, and Africa, UTAC operates 30 laboratories and 250 km of test tracks. Their team of 1,300 experts provides agile services and acts as enduring partners to their clients. UTAC's services are categorized into key areas: Safer, which includes active and passive safety testing; Cleaner, focusing on electrification and sustainable solutions; Regulations, covering global homologation and certification; and Digital, which encompasses cybersecurity and autonomous mobility. The company has a rich history of expansion and acquisition, including the merger of UTAC CERAM and Millbrook in 2021 to form UTAC Holding. Celebrating its 100th anniversary in 2024, UTAC continues to pioneer new frontiers in mobility.
