

Imbert Japan Co., Ltd.

Company Description

Imbert Japan Co., Ltd. is a dedicated trading company specializing in the import and domestic distribution of premium food ingredients for the confectionery and baking industries across Japan. The company was established on July 5, 2011, and is spearheaded by Representative Director and President Alexandre Nozier, operating from its headquarters situated in Nishi-Azabu, Minato-ku, Tokyo.

The company's core business involves the import and sale of essential pastry raw materials. Since its inception, Imbert Japan's fundamental mission has been to ensure the supply of "high-quality and safe ingredients" to its professional clientele. To fulfill this commitment, the company has forged strong partnerships with distinguished European food manufacturers, making sure that Japanese pastry chefs and food service operators have access to the finest and most reliable materials available globally.

The portfolio is anchored by major international brands. One key partner is **Marrons Imbert** from France, a time-honored chestnut processor with a history spanning over a century. Their products are celebrated for utilizing only the highest quality chestnuts, which are meticulously selected and processed to preserve the fruit's authentic and exquisite natural flavor. The other major partner is **Confiletas** from Spain, a specialist in high-quality baked products such as tart shells. Confiletas's offerings are widely adopted internationally, valued for their contribution to both the quality of the final product and the efficiency of the kitchen, helping reduce preparation time and costs.

Imbert Japan efficiently distributes these international, premium products through an extensive network of domestic wholesalers. This strategy allows the company to cater effectively to a diverse customer base, which includes everything from small, cherished independent patisseries to large, national food service corporations. Key trading partners in Japan include prominent industry players such as Ikeda Co., Ltd., and Iwase Esta Co., Ltd. Imbert Japan also maintains active membership in various industry organizations, including the Japan Western Confectionery Association, demonstrating a commitment to the broader development and excellence of the confectionery sector in Japan.

In his corporate message, President Alexandre Nozier articulates the company's objective: "Our main objective is to meet the expectations of our customers who process the products we import and sell, and ultimately, to satisfy the needs of consumers." This philosophy underscores a dedication that extends beyond simple distribution to active contribution across the entire value chain. The company emphasizes maintaining high-quality service alongside its superior products, with all employees committed to delivering the utmost best in both product and support, positioning Imbert Japan as a vital partner in advancing the distinctive and evolving Japanese pastry culture.
