VUCAdapt Co., Ltd.

Company Description

The company name VUCAdapt was born from our desire to support clients in this VUCA (Volatility, Uncertainty, Complexity, Ambiguity) era and adapt together. In today's era of declining population, securing “human capital” with fresh perspectives and specialized skills is essential for SMEs to sustain growth. At VUCAdapt, we go beyond merely addressing labor shortages. We provide specialized recruitment services focused on high-caliber foreign talent at the executive and mid-management levels—individuals ready to contribute immediately and help shape the future of your company. This includes professionals holding “Technical/Humanities/International Services (T/H/I) Visas” and status-based visas (such as those for spouses of Japanese nationals or permanent residents).
