

Quaker Houghton

Company Description

Quaker Houghton is the global leader in industrial process fluids, continually improving and innovating so the world's steel, aluminum, automotive, aircraft, machinery, and industrial parts manufacturers can stay ahead in a changing world. If it's made of metal—rolled, cut, drawn, or cast—Quaker Houghton is there, optimizing processes, reducing costs, advancing safety, and promoting sustainability to drive progress.

With a robust presence around the world, including operations in over 25 countries, their customers include thousands of the world's most advanced and specialized companies. They take on their customers' challenges as their own, bringing the right combination of science, engineering, and business savvy so they can meet the future fully confident that their operations will run even more efficiently and effectively, whatever comes next.

Their high-performing, innovative, and sustainable solutions are backed by best-in-class technology, deep process knowledge, and customized services. With approximately 4,700 employees, including chemists, engineers, and industry experts, they partner with customers to improve their operations so they can run even more efficiently and effectively. This collaborative approach allows them to develop tailored solutions that meet the specific needs of each customer, helping them to overcome their most pressing challenges and achieve their business objectives. Quaker Houghton's commitment to innovation and sustainability ensures that they are well-positioned to continue to lead the industry for years to come.

Our people are our greatest strengths.
