MN INTER-FASHION
MNインターファッション株式会社

MN Inter-Fashion Ltd.

Company Description

MN Inter-Fashion Ltd. is a specialized trading company in the textile and fashion industry, established in 2016 following the integration of the textile businesses of two major Japanese trading houses, Mitsui & Co., Ltd. and Nittetsu Bussan Corporation. The company operates under the mission of "Clothing the world, weaving the future."

The company's core business revolves around the sourcing, planning, and sales of a comprehensive range of items, including functional materials, performance textiles, industrial materials, as well as finished goods like apparel, fashion accessories, and home fashion products. A significant part of its operations is the **OEM (Original Equipment Manufacturer) and ODM (Original Design Manufacturer) business**, where it handles everything from product planning and design to production management and delivery for clients. Furthermore, the company engages in **Brand Business**, managing the marketing and distribution of global brands in the Japanese market, and a **Digital Business** arm that drives digital transformation (DX) within the fashion supply chain.

Leveraging the robust foundations of its parent companies and its own extensive, established global network, MN Inter-Fashion has built a resilient and efficient supply chain. This network, which includes numerous domestic and overseas group companies, enables end-to-end management from raw material procurement and production to logistics and final sales, ensuring quality and swift response to market trends.

In line with global priorities, the company places a strong emphasis on **sustainability**. This commitment is reflected in its focus on developing and utilizing environmentally conscious materials and functional textiles that contribute to a lower environmental footprint. The corporate philosophy is based on three core values: **"Change for the Better," "Teamwork," and "Integrity."** These values guide the company's approach to embrace change proactively, collaborate effectively, and operate with the highest level of ethics and trustworthiness.

MN Inter-Fashion is dedicated to being a pioneer in the evolving fashion landscape, utilizing technology and innovation to create value that goes beyond simple product trading. By continuously seeking better solutions and fostering strong partnerships worldwide, the company aims to contribute to a richer and more sustainable future for the global textile and fashion industry.
