

LeIN ,Inc.

Company Description

OUR VISION

Light up EngINeer

"LeIN" embodies our vision: "Light up Engineer."

It is the engineers who drive digital transformation within society and businesses, essential for Japan to continue making its presence globally.

From the HR domain, we aim to create a society where engineers can work lively and excel, contributing to Japan's digital transformation.

OUR MISSION

Offering Proactive Solutions a Step Ahead

We propose proactive solutions to our clients' HR challenges, working together to address and resolve issues, and ultimately become partners in creating better organizations.

As recruitment professionals, we strive to identify and resolve underlying hiring process issues.

At LeIN, we refer to our client recruitment support as 'Customer Success.'

As a partner, we aim to hit recruitment goals together with our clients, and value accompanying them along their success journey.
