SHILAC JAPAN CO., Ltd.

Company Description

Our founder established Shilac Japan with a powerful vision: that globally minded individuals could make a company with meaningful impact. This vision laid the groundwork for our core values — that diverse experiences expand perspective and encourage independent thinking; that independence nurtures initiative and accountability; and that together, these qualities inspire generosity, trust, and lasting connection.

As we mark our 30th anniversary, we are proud to say that this vision continues to guide us. Whether it's the trust between our customers and staff, the bonds among colleagues, or our relationships with partners both in Japan and around the world — we see our founding values come to life every day. It is with humility and deep respect for this legacy that we, as co-CEOs, take on the responsibility of leading Shilac Japan into its next chapter.

Thirty years of steady growth is no coincidence. It reflects the hard work, adaptability, and shared commitment of everyone who has contributed to our journey. Today, the company has evolved — and so have our goals. As we look to the future, our focus is on preserving the heart of what made Shilac successful, while embracing the changes needed to meet new challenges.

Together, we bring different experiences and complementary strengths, but we are united by a shared value: to always prioritize the best interests of the company. Over the past nine years of collaboration, we've learned how to bring out the best in each other — and in our teams. And bringing out the best in everyone remains the cornerstone of our leadership.

Looking forward, our new vision outlines an ambitious, multi-faceted strategy. Our goal is to achieve long-term, sustainable growth — in a way that honors our roots and reinforces our values. We will continue delivering exceptional products and services to our customers. And we will strive to bring out the best in our colleagues and our partners to ensure that all stakeholders are better off because of Shilac Japan.
