

KYT Co., Ltd.

Company Description

KYT Co., Ltd. was established on September 8, 1979, initially as a trading company dealing in pulp and paper products. Adapting to the demands of a changing era, the company founded its Interpreting, Translation, and Conference Support (Secretariat Services) Division in 1991. It began operations as an interpretation agency specializing in the nascent field of IT (Information Technology) and quickly grew to a scale that became a benchmark in IT-related language services.

Today, KYT's expertise extends well beyond IT to include a wide range of sectors such as Finance (IR), Medicine, Pharmaceuticals, Law, and Entertainment. The company is actively dedicated to training and developing interpreters and translators capable of excelling in these diverse, highly specialized areas. Its core business activities encompass Interpreting Services, Translation Services, Human Resource Services (worker dispatch and paid placement), and Secretariat Services (including the management of exhibitions, seminars, and staffing).

At the heart of KYT's operations is the philosophy of "Consulting Coordination," which is rooted in the belief that "Professional capability is not something that emerges naturally, but something that must be drawn out." For the professionals who serve in international conferences and major global events, KYT continuously provides the advanced management necessary to ensure their exceptional skills are utilized to their maximum potential when needed.

President and Representative Director, Mr. Hidekata Tagusari, expresses a strong commitment for KYT to become "a globally trusted enterprise as language professionals." He emphasizes that language eliminates the isolation of incomprehension, facilitates true communication that brings joy, and plays a vital role in shaping the future. He believes the true value of KYT's work lies in the power of language to finalize multi-national business contracts, foster the creation of new products and technologies, and ultimately bring happiness to those in need of these advancements.

KYT is guided by two central missions:

Mission to Customers: To serve customers and society through comprehensive language services (interpreting, translation, dispatch, international conferences, and education). The company consistently pursues "Best Coordination" and "Best Service," aiming for the limitless expansion of its scope of service.

Mission to Employees: To prioritize the individual's fulfilled life (personal happiness) and build a company that supports this through fair evaluation, continuous provision of work for professional talent, ensuring work is engaging and autonomous, and fostering a vibrant, enjoyable company environment.

KYT is committed to seeking solutions even for the most challenging projects, transforming them into valuable outcomes, and thereby creating a brighter future for all.
