

Soufflet Malt

Company Description

Soufflet Malt is a global leader in malt production, operating 41 malting plants across 20 countries with an annual capacity of 3.7 million tonnes. The company supplies brewers, distillers, and food producers worldwide with a wide range of malts, including standard, roasted, and specialty varieties to meet diverse flavor, color, and quality needs. Soufflet Malt emphasizes sustainability, investing in lower carbon emissions, efficient water use, and responsible sourcing of barley. By combining global scale with local agricultural expertise, the company delivers reliable, high-quality malt solutions to customers around the world.
