

Yamashita PMC Inc.

Company Description

The major difference between Yamashita PMC and other consulting firms is that we meet with the client again and again to work out a facility strategy that perfectly fits with their business strategy. Then, until the client's vision has been realized, we make sure to provide a steady stream of services. Unlike other firms that just hand over some documents, suggest an idea and forget about it, and don't bother to see the project through to fruition, the managers at Yamashita PMC will never provide their services in such a manner. Not only are they smart, but they are assertive and put in a hard day's work for their clients. This is Cutting-edge Services.
