

M&A Capital Partners

Company Description

Since our founding, we at M&A Capital Partners have consistently provided M&A advisory services, primarily to owner-managers of small and midsize companies needing successors. There are still many owner-managers who, through our proposal, are discovering for the first time that M&A can be a viable option for business succession and that M&A has various advantages compared to other options.

We listed our stock on the Mothers Market of the Tokyo Stock Exchange in 2013 and moved our listing to the First Section, currently the Prime Market, of the same stock exchange in 2014. However, our services need to be well known, and we are keenly aware that we must put more effort into increasing our recognition.

We could not have come this far without the hard work of our employees. Staying faithful to our value of "continually pursue greater knowledge, higher levels of service, more cooperative teamwork, and new fields. Above all, we will strive to achieve the solutions and gain our customers' expect with earnestness and passion that far exceed our competitors." we have always encouraged our employees to aim for personal growth through their work. As a company, we were able to grow this far owing to the contribution of like-minded members with a shared goal.
