
Oshinobi Travel (TCL Japan G.K.)

Company Description

Oshinobi Travel (registered as TCL Japan LLC) is a Destination Management Company (DMC) specializing in bespoke itinerary planning and booking services for high-net-worth and affluent Free Individual Travelers (FIT), primarily from the United States.

Established in 2024 as the de facto Japanese entity of Travel Collection, an international DMC group, we combine the extensive network within the luxury travel market that our two founders built over more than a decade after earning their MBAs from Harvard Business School, with the best practices accumulated across the group's DMCs worldwide. This foundation has allowed us to receive a significant volume of inquiries from our very earliest days.

We believe that for our clients, "luxury" is not simply about opulence — it is about genuine human connection and the discovery of all that is authentically Japanese. Our mission is to create experiences that are comfortable, seamless, and above all, truly memorable for a lifetime, from the moment a guest first imagines their journey to the moment they arrive safely home. We are dedicated to serving as a thoughtful bridge between international travelers and the beauty and depth of Japan.
