

COSMO GLOBAL CO., LTD.

Company Description

Cosmo Global Co., Ltd. is a chemical trading company based in Honjo, Sumida-ku, Tokyo, established in March 2011. With a capital of 10 million yen and a small team of only a few employees, the company generates annual sales of approximately 600 million yen and primarily conducts business through international trade.

Its main business activities include the import and export of chemical products such as battery materials and resin materials, as well as chemical additives and functional materials. Leveraging its experience and expertise in global trade, the company specializes in international business within the electronic components and materials sectors.
