Anson McCade Pte. Ltd.

Company Description

Specialist Contingency, Search Recruitment & Consultancy Services
We work internationally, providing high-end, niche services to clients that target the very best talent in the world.

Anson McCade is a specialist recruitment firm that has its roots in the UK but operates internationally. We provide high-end, niche recruitment services within specific technical and business sectors on a contingency or search basis. Our clients typically target the very best talent in the area of expertise required. We work on mandates for both permanent and contract personnel.

Anson McCade doesn't offer a one-stop shop service. We know where our strengths are and prefer to concentrate our efforts in these disciplines, so if we are of the opinion that we will not be able to effectively resource for a position we will say so. We never submit candidates without interviewing them first. Nor will we inundate our clients with CVs; being flooded with CVs is part of our job, not our clients'. We ensure our clients only get a very small, select choice of highly relevant profiles so they can spend more time on building their businesses.
