TaiShoDo

TaiShoDo Co., Ltd.

Company Description

Taishodo Co., Ltd. is a prominent Japanese enterprise headquartered in Nasushiobara City, Tochigi Prefecture. The company is dedicated to supporting the development of the livestock and agricultural industries through the distribution and sales of veterinary pharmaceuticals, livestock machinery, and agricultural supplies.

The company's history dates back to 1924 when it was originally established as a pharmacy named "Yoshinari Taishodo." Recognizing the growing demand for specialized veterinary products, the company separated its animal health division in March 1984, establishing Taishodo Co., Ltd. as an independent corporate entity.

At the core of Taishodo's corporate culture is its deeply held philosophy: "He who makes others happiest is himself happiest." This guiding principle reflects the company's belief that a business cannot achieve sustainable growth unless it truly brings joy and value to its customers. Taishodo promises to consistently deliver high-quality products with proven efficacy. The company understands that even the most talented sales representatives cannot build lasting trust without exceptional products. Therefore, strict quality control and careful product selection remain top priorities.

Taishodo's business operations are broadly categorized into two major pillars: "Livestock & Companion Animals" and "Agriculture & Gardening." In the animal health sector, the company provides safe and reliable veterinary medicines, vaccines, feed additives, and advanced livestock machinery to improve farm productivity. In the agricultural sector, it offers a comprehensive range of products, including high-grade fertilizers, pesticides, gardening tools, agricultural equipment, and wildlife damage prevention materials. Furthermore, in 2020, the company launched "TaiShoDo," a specialized retail store for agricultural and gardening supplies, catering to both commercial farmers and home gardening enthusiasts.

One of Taishodo's greatest strengths is its extensive network across Japan. As of 2026, the company operates 12 locations, including sales offices and community offices throughout Tochigi, Gunma, Ibaraki, Chiba, Miyagi (Tohoku Office), and Hokkaido (such as Obihiro, Asahikawa, Kushiro, Nakashibetsu, Okhotsk, and Tomakomai). This strategic regional network allows Taishodo to deliver meticulous, community-oriented services and ensure prompt responses to local client needs.

In 2022, the establishment of Taishodo Holdings Co., Ltd. further strengthened the group's organizational structure. Today, the company actively addresses environmental and social challenges while committing to Sustainable Development Goals (SDGs). By enhancing animal health and boosting agricultural productivity, Taishodo aims to play a vital role in creating a sustainable society. The company continuously seeks motivated individuals who share its vision and are eager to contribute to local communities through innovative problem-solving and dedication.
