International Data Corporation Japan

Company Description

Changing the way the world thinks about the impact of technology on business and society.

International Data Corporation (IDC) is one of the world's leading global providers of market intelligence, data, and events for the information technology, telecommunications, and consumer IT markets.

With more than 1,300 analysts worldwide, IDC conducts market research, analysis, and forecasting at the global, regional, and country levels across more than 110 countries. IDC's analysis and insights help IT professionals, business executives, and the investment community make fact-based decisions about technology adoption and achieve their key business objectives.
