

RYOHSIN CO., LTD.

Company Description

Ryohshin Co., Ltd. is a recycling plant manufacturer headquartered in Toyama City, Toyama Prefecture, Japan. Since its establishment in 2001, the company has been committed to creating a sustainable, advanced recycling-oriented society through the design, manufacturing, sales, installation, and maintenance of recycling plants and environmental equipment.

The company's strength lies in its ability to provide innovative recycling solutions by incorporating cutting-edge technologies from around the world. Utilizing advanced equipment such as AI-powered sorting robots, optical sorting systems, shredders, and air separation technologies, Ryohshin delivers customized recycling plant solutions tailored to the specific needs of each customer. Through collaboration with leading international technology partners, the company contributes to improving efficiency and advancing the recycling industry.

In recent years, the recycling sector has faced growing challenges, including labor shortages and increasing demands for carbon neutrality. To address these issues, Ryohshin has actively promoted the development of highly automated recycling plants that reduce dependence on manual labor through artificial intelligence and automation technologies. These initiatives help customers improve productivity while supporting the transition toward a circular economy and a more sustainable future.

By providing comprehensive services ranging from consultation and plant design to installation and after-sales support, Ryohshin has built long-term relationships with customers across various industries. Through its commitment to technological innovation and environmental responsibility, the company continues to grow as a trusted partner dedicated to advancing resource recycling and sustainable development both in Japan and internationally.
