

Kanto Agricultural Machinery Co., Ltd.

Company Description

Kanto Agricultural Machinery Co., Ltd. is an agricultural machinery manufacturer founded in 1935 and incorporated in 1962. The company provides integrated services covering the planning, development, manufacturing, sales, and after-sales support of agricultural machinery, with a particular focus on compact tillers, cultivators, and utility carriers. It holds a strong position in the compact agricultural machinery market. Leveraging decades of manufacturing expertise, Kanto Agricultural Machinery is committed to making farming more enjoyable and efficient by delivering high-quality agricultural equipment to customers in Japan and overseas.
