

LivLx Inc.

Company Description

LivLx Inc. is an energy technology company specializing in the development, manufacturing, and sales of energy storage systems, contributing to the widespread adoption of renewable energy and the realization of a sustainable society. Guided by its corporate philosophy, "By combining diverse strengths, we strive to create a compassionate and prosperous society," the company is committed to innovation and creating new value while embracing change.

LIVLUX has established a robust quality management system and is certified under **ISO 9001:2015** for the development, manufacturing, and sales of power electronics products. In addition to its energy storage business, the company is actively promoting domestic photovoltaic (PV) cell manufacturing in Japan, supporting the growth of the country's renewable energy industry while contributing to regional development and job creation.

The company name "LIVLUX" combines the words "**Live**" and "**Lux**" (Latin for "light"), reflecting its mission to provide people with a brighter and more hopeful future through advanced energy solutions.
