

## Kensington Kids Academy

### Company Description

At Kensington Kids Academy, everything begins with one guiding principle: putting our students' happiness and learning first. From our School Leader, Mr. Mastris, to our newest part-time teaching assistants, every member of our team shares the same commitment to helping each child thrive.

Since our founding in 2019, this student-first philosophy—combined with integrity, transparency, and genuine care for every child—has driven our rapid growth. Within just a few years, we have become a trusted choice for families seeking a high-quality English after-school program. In 2026, we are further expanding our educational offerings with the opening of our International Preschool.

At Kensington Kids Academy, we provide a comprehensive English education that emphasizes speaking confidence, self-expression, and practical communication. While developing all four core language skills—listening, speaking, reading, and writing—we create a fun, supportive environment where every child can build strong English proficiency with confidence.
