

Translated Srl

Company Description

We believe in humans.

Translated is a leading provider of AI-driven language solutions, founded in 1999 by linguist Isabelle Andrieu and computer scientist Marco Trombetti to allow everyone to understand and be understood in their own language.

Our vision

We envision a world where people from diverse cultures can communicate seamlessly, with unprecedented access to knowledge, cultural exchange, and business opportunities. Language is a key driver of human evolution, and we believe that solving the translation problem will unlock a new era of global collaboration.

To make this possible, we combine the sensitivity and expertise of **language professionals** with **state-of-the-art artificial intelligence**. This powerful symbiosis enables us to deliver fast, consistent, high-quality translations that are always in context, bridging gaps and fostering meaningful connections across the globe.
