ISSUES.

Career Scout Japan specializes in Accounting & Finance, Supply Chain Management and Human Resources recruiting for small and medium size international companies in Japan.

OUR MISSION
We aim to set the standard in Japan for Accounting & Finance, Supply Chain Management and Human Resources recruiting for small and medium enterprises (SME) by providing an efficient, effective and enjoyable service.

SME employers face immense competition to recruit the right bilingual talent. Large size companies with big budgets and the ever-increasing number of Tokyo start-ups have created an unfavorable hiring climate. Also, strong agency recruiting partners capable of steering top-talent to SMEs are few and far between. Career Scout Japan focuses our energy and resources on providing a customized recruiting service to the unique challenges of SMEs.
