Honortech International Limited

Company Description

Honortech International Limited was established on August 18, 2008. It is a continuously developing hybrid distributor of electronic components, headquartered in the international trade center Hong Kong. It has branches and offices in Shenzhen, Suzhou, Shanghai, Dalian, Fuzhou, Taiwan, Japan, Malaysia, Thailand, Pilippines and India.

Honortech focuses on the distribution of international manufacturers (TI, ST, XILINX ALTERA...) and the agency business of domestic manufacturers, and has a highly professional purchasing team, QC teams and sales elites with an international perspective to provide customers with high efficiency and quality control of electronic components distribution services. The company has obtained agent authorization of Geehy, 3peak and other domestic first-class reputable manufacturers, configuration of professional PM and FAE team, to provide customers with one-stop electronic component supply solutions and design-in or alternative solutions for domestic semiconductor brands. The applications areas cover network communications, green energy, industrial control, medical, Internet of things, automotive and other related fields.

Honortech has been recognized for its excellence with numerous awards and certifications, including the title of International Most Promising Distributor for consecutive years, high-tech enterprise status, ISO9001 & ISO28000 international system certification, ANSI/ESD S20.20-2021 certification and ERAI certification. The company is also a proud recipient of Dun & Bradstreet 3A level enterprise certification. Internal lab is equipped with professional decap testing equipment.
