Job Description

What you will be doing

- Understand business requirements, and deliver features with high quality and speed
- Design, develop, test, and operate new user-facing features for large scale e-commerce systems
- Build reusable, flexible and perform code and libraries for future use
- To perform system improvement (e.g. refactoring, adopting appropriate technologies & system architecture, optimizing the JS performance with a proper optimization)
- Bring new and fresh ideas to the team
- Collaborate with other team members and stakeholders

A commitment to team collaboration, good communication and delivering quality product is important.

Work Environment

Young members in their late 20s to early 30s, from various countries and different cultural backgrounds.

In addition, there is no barrier between job titles and services in charge, and the entire department has an open and flat atmosphere, and we are very active in exchange meetings with other groups such as information sharing meetings and problem solving.

In short, it is a very lively cross-cultural environment where we can work, learn and have fun with each other and grow together.

Work arrangement

- Team/department dependent (4 times in office is preferred)

Required Skills

Mandatory Qualifications

- Over 8 years of experience of web application development with any of the following languages: Javascript or Typescript
- Proficient in HTML, CSS, JS
- Over 4 years of experience with JS frameworks (Vue.js, React, etc)
- Experience with Frontend Architecture Design
- Experience with version control system
- Experience in web application development with SPA and server-side rendering concepts

Desired Qualification

- Experience of leading project/team as a Tech/Team Lead
- Experience with Web Application Frameworks
- Experience with Unix / Linux (shell scripting, web administration, troubleshooting, etc)
- Experience working on e-commerce system
- Familiar with testing principles for application, Unit/Integration/Functional Testing

Company Description

About en world

en world is a group of recruiting consultancies specialising in professional and managerial roles. Operating from 3 countries, we support global companies' recruitment needs through our Asia Pacific network.

About en world Japan

en world Japan supports globally-renowned international and Japanese companies to hire professionals and managers. Our recruitment consultants specialise across both function and industry resulting in deep market knowledge and focused search results.

en world Japan was founded in 1999, operating as Wall Street Associates and specialising in financial services recruiting. We expanded our coverage and service in response to our customer needs. In 2010 we became a group company of en-japan inc., a leading internet-based provider of recruitment services in Japan.
