### Job Description

**Responsibilities:**

Collaborate with cross - functional stakeholders including engineering, business and design teams to steer the product roadmap.

Lead and establish clear product strategies and goals for the team with data-driven decisions, execute the plans and support business metrics and indicators for success.

Bridging business and technical requirements, translate the customer experience into clearly defined product requirements and user stories that can be used in product specifications and system architecture.

Take responsibility for the project's success, by collaborating with the development team throughout the product development lifecycle, providing guidance and clarifications on requirements.

Prioritize and manage the product backlog making data-driven decisions, ensuring that features and enhancements align with

the product vision and strategy.

Identify new opportunities and customer needs, and collaborate with other teams to increase customer value.

Be part of the team where we cultivate a culture of innovation by encouraging each other to experiment, pitch new techniques and ideas to enhance product features.

## Company Description

RANDSTAD connects great people with great companies, making the right human connections to create winning teams.

Randstad may be a recent name in Japan, but we've been supporting candidates and clients in Japan for more than 25 years.

With humble roots in the Netherlands in 1960, Randstad grew from a small, local staffing company into a global leader in HR solutions, covering 39 countries.

Randstad Japan, a premier HR Professional Services company is growing its Professionals (mid-career / executive search) recruitment division rapidly from 2014. We're looking for passionate, ambitious team-players who are ready to bring their career to the next level. With 117 offices located across Japan, a wide-ranging client network across industries and functions, Randstad is well-positioned to grow its recruitment presence in Japan.
